

Reaper

Birds of a Feather, Book 5

Reaper is the fifth and final book in the Birds of a Feather series, a young adult/coming of age series with paranormal elements, full of laughter, mystery, and romance.

Annie has secrets.

She takes a job as stable hand at Double H, but she's really there to let her unusual abilities help the group around Hawker Johns in their search for the man responsible for death and destruction - Cameron Strachlan.

Abuse victim. Murderer. Lost boy. The devil. Annie has more reason than most to hate the man, but that is a secret too.

It's a surprise to find Olly at Double H, and nothing about him is like she'd imagined. Olly is hard and angry, and his eyes almost as black as the tattoos on his neck. She knows immediately that she's looking straight into the eyes of the Reaper.

As they spend time together, the Olly she thought he would be slowly begins to show again, but there are still doubts at the back of her mind... What will happen when he finds out? Can he handle her secrets?
